- Louring the first week of January a report from the newly created "Osvobodilna Fronta" of the Nationalists (referred to as the Slovene Underground Movement arrived from Ljubljana. The report presented the following ideas:

It also desires complete collaboration between all Catholic organizations.
 - b. The new "O.F." has 15 members and has become active. It is composed of about 80 percent of followers of SLS, and 20 percent Socialists and Liberal Nationalists.
 - c. It regards the country of Mugoslavia as a fact, but desires, however, that all Slovenes will be in Slovenia.
 - d. It enjoins the Americans and British not to collaborate with Tito, because Tito is still a representative of Communism. It stresses that the new "O.F." will continue the struggle against Tito.
 - e. It explains the position of the Yugoslav Communists against the East and the West. It predicts eventual collaboration with and reconciliation between the Soviet Union and the Federated Republics of Yugoslavia. Therefore, the West is not to trust Tito's latest moves.
 - f. It severely criticizes "illegal experiments" and cites various exemples as dangerous.
 - g. It criticizes the BEG for allegedly saying that the Yugoslav people are for Tito because his policies are now nationalistic.
